28	Whitener #28 1 1/2 blocks of Whitener #28 in 1 lb of paraffin wax with no fragrance produces snow white candles. Water white fragrances in 1 lb of paraffin wax and 1 1/2 blocks of #28 usually produces snow white candles. Colored fragrances and Whitener #28 do not usually produce a white candle.			
29	Ultraviolet Light Absorber #29 1 1/2 blocks in 5 lbs of wax. Prevents fading of all candle colors. Block #29 is particularly effective with candles containing blue dye. We recommend using UV light absorbers in all dyed candles. All candle dyes fade over a period of time, especially light shades without UV absorbers.			
30	Ultraviolet Light Absorber #30 1 1/2 blocks in 5 lbs of wax. Prevents fading of all candle colors. Block #30 is particularly effective with candles containing red and yellow dye.
